FEATURES

Firmest Fit Available

The deep nape strap enables the firmest retention of any helmet, keeping it firmly rooted on the head. The OneTouch™ slip ratchet makes it simple to tighten to the perfect fit.

CR2 Reflective

Using Class RA2, high intensity reflective. CR2 is the biggest step-up in night time visibility/reflectivity of head protection to date. Conforms to Class RA2, EN12899-1.

Supreme Comfort

A traditional 6-point polyethylene harness making the EVO®2 the more economical choice, whilst still providing the same high performance as the EVO®3.

Ventilation Option

Vented shell to increase comfort and allow cooling air flow, reducing helmet temperatures by an average 2-3 degrees Celsius.

3D Adjustment

The polyethylene harness features unique 1-2-3 point depth settings. This offers the most precise fit attainable on an industrial safety helmet.
